Locomotive Service, Inc. partners with Sycamore Hill Capital Group

Locomotive Service, Inc. (LSI), a provider of locomotive fueling and related services to North America's railroads, has partnered with Sycamore Hill Capital Group (Sycamore). Sycamore, a private investment group that is focusing on outsourced services to the railroad and related sectors, will provide the capital and management resources LSI needs to continue improving the range and quality of services available to railroads.

According to Sycamore Chairman, Chuck Greenberg, "LSI has more than quadrupled in size the past two years and their growth is a direct result of the company's innovative thinking and focus on customer service. LSI's management is the best in the industry. We jumped at the opportunity to be a part of their team and look forward to helping them continue raising the bar for services available to railroads."

"Sycamore shares LSI's focus on the customer. Sycamore's support means LSI will have the financial resources and broad business support we need to continue growing into a truly distinctive partner to North America's railroads," said Ryan Gilmer, LSI's President.
